Hose-ends, plugs, ball valves, clamps, tubing holder stakes and more—whatever accessories you need to customize your drip irrigation system, DIG has got you covered!

**No clamps or glue required. Join tubing in an easy and secure way using our complete line of fitting options.**
Connect To Your Water Source
DIG’s multiple connection methods or retrofit drip heads allow you to easily connect and create a water-saving drip irrigation system.

Convert a sprinkler riser with a multi-outlet drip manifold.

Automate with a timer (optional)

Look for this color code:

Water Connections
Or match locator numbers.

Most Common Water Connections

Additional Connection Methods

Look for these color codes:

Fittings & Tubing
Or match locator numbers.

Lay Out and Assemble Your System
DIG’s tubing, dripline, drip fittings and accessories allow you to configure and customize a low-volume irrigation system to meet your specific needs.

1/2 in. Poly Tubing and 1/4 in. Micro Tubing
Distributes water to your emission devices whether they are dripline drippers or micro sprays

1/2 in. and 1/4 in. Dripline
Installing dripline is quick and easy. Emitters are pre-inserted within the tubing. Simply lay dripline in and around plants.

Barb and Compression Fittings
Use to connect your system, creating a secure water tight fit.

Stakes
Secure your drippers and tubing in the ground.

Punches
Create holes for drippers, barb fittings, or micro sprays.

End Closures
Closes the end of your 1/2 in. poly tubing.
Choose Your Watering Method

Select from a wide range of Drip emitters and micro-sprinklers, sprayers and jets designed to meet any landscape water requirements.

Look for this color code:

- Micro Sprays
- Drippers

Or match locator numbers.

- Button Drippers
  - Available in .5, 1, & 2 GPH
  - Labyrinth water passages provide an accurate flow (at 25 PSI).

- Pressure Compensating Drippers
  - Available in 1, 2, & 4 GPH
  - Self-cleaning, pressure compensating feature allows for longer runs with varying elevation.

- Micro Sprays
  - Choose from a wide selection of micro sprays with varying flow rates, watering distances and wetting patterns.

- Misters and Foggers
  - Provide a fine mist for maximum absorption.
